

Wachamo University

Item No	Description	Quantity
1	The experience of young women with SSKE	3
2	Quality indicate preventable address drug events	2
3	Rational individualized pharmacotherapy in depression mange	6
4	Lecture notes in mathematics	5
5	Adherence to tuberculosis treatment	2
6	Technology assessment in health care	20
7	Enhancement of research capacity in Nepal	1
8	Issues in antibacterial provision in primary health care in Nepal	1
9	Studies on medicine use socio-economics position at the population level	3
10	Young women's use of medicines a qualitative study	7
11	Course on research of methods in primary health care	3
12	Organic chemistry	4
13	Oxford textbook medicine	1
14	Concise oxford textbook medicine	1
15	Thrombosis and homeostasis	1
16	Principles of international medicine	1
17	Oxford textbook of rheumatology	1
18	Molecularly biology of the cell	1
19	Medical dictionary	1
20	A complete course calculus	1
21	Modern genetic analysis	1
22	Quantitative chemical analysis	1
23	Oxford textbook of rheumatology second edition	1
24	Statistical methods in caner research	1
25	Integration of ecosystem theories a pattern second revised edition	1
26	Java software solutions	1
27	Essential organic chemistry	1
28	Molecular cell biology	1
29	Hand book of chemotherapy in clinical oncology	1

30	Neurobiology second edition	1
31	Queen's papers in pure and mathematics	1
32	A text book of drug design and development	1
33	Homeostasis and thrombosis, basic principles and clinical practice	1
34	Chemistry principles and reactions	1
35	Chemical principles	1
36	Chemistry principles and reactions	1
37	Meyers, Side effects of drugs	1
38	Atlas of rheumatology	1
39	Post infarction myocardial ischaemia	1
40	Pharmacology	1
41	Modern economics	1
42	Analysis of decisions under uncertainty	1
43	Public finance	1
44	Indefinite inner product space	1
45	Cooperatives and payment schemes	1
46	The back pain revolution	1
47	General physics second edition	1
48	Expanding indications for the new microclines Azalides, and streptogramins	1
49	Gene cloning	1
50	Technology assessment in health care	2
51	Mathematical models of epidemics	1
52	Mechanizing hypothesis formation	1
53	Asymptotic expansions and the deficiency concept in statistics	1
54	Kt channel in cardiovascular medicine	1
55	Diabetes and cardiovascular risk	1
56	Readings in sociology	1
57	Oxford advanced learner's dictionary of current English	1
58	Identification and informative sample size	1
59	Pattern synthesis, lectures in pattern theory	1
60	Mathematical models for growth of human populations	1
61	The clinical approach in psychiatry	1
62	Clinical obstetrics and obstetrics and gynaecology	1

63	Growth hormone and insulin-like growth factor I in human and experimental diabetes	1
64	IR Indiana review	1
65	Global trend of Jatropha research and its use	1
66	Integer programming	1
67	Statistical decision theory and related topics	1
68	Cognitive psychology	1
69	Gene cloning an introduction	1
70	Cost-effective management tools for ensuring food quality and safety	1
71	Social theory and health	1
72	Clinical rheumatology	1
73	Structure, stability and digestion of caprine and bovine lactoferrin. A comparative study	1
74	Patient education an inquiry into the state of the Art	1
75	The influence of dietary fatty acid composition and sex on pork quality	1
76	Agricultural mechanization in sub Saharan Africa	1
77	Oxford hand book of clinical medicine	1
78	Empirical distributions and rank statistics	1
79	Oxford hand book of clinical immunology	1
80	An introduction to non-life insurance mathematics	1
81	Some contributions to the theory of sampling	1
82	Nadhan kegfitz John A-Beekmen demography through problems	1
83	Introduction to sensitivity and stability analysis in nonlinear programming	1
84	Fessenden	1
85	Bioactive components and health	1
86	Classifying infinitely divisible distributions by functional equations	1
87	Asthma	1
88	Institute for grund dvidenskab	1
89	Nasal polyposis	1
90	General physics	1
91	Lectures spring 2006	1
92	Organic chemistry	1
93	Exercises spring 2006	1

94	Immunology rolitt Brost off male	1
95	Queens papers in pure and applied matimatics	1
96	Two stochastic processes	1
97	A distribution models, estimation, and control volume 1	1
98	University of California engirentg exrtensies	1
99	Integral measure and derivative unified approach	1
100	Benchmark papers in electrical engineering and computer science	1
101	De gruyter studes in mathematics	19
102	Rheumatoid arthrifis	1
103	Implementation of patient educational dutch community pharmacies	1
104	Seemingly unrelated regression equations models	1
	Total	168
